Job Opportunity #1 -

Job ID: 21083
Storeroom and Receiving Manager, BDS (5041U)

Department: Biosciences Divisional Service
Location: University of California, Berkeley, Main Campus

The Departments of Integrative Biology (IB) and Molecular and Cell Biology (MCB) together are among the largest academic departments at UC Berkeley. By several measures (including number of faculty and students, budget, and assigned square feet), these departments are larger than many UCB colleges and schools. The two departments represent over 150 faculty FTE (including Adjuncts, Professors of the Graduate School, active emeriti and 13 HHMI professors); 200 postdocs and other research positions; 370 graduate students; 100 department staff members; and 8 recharge centers. Financial resources include approximately \$55M in annual extramural funding (which accounts for over half of the total sponsored research awards in the College of Letters & Science) and over \$40M other fund sources. The department has 1,800 declared undergraduate majors (the largest majors on the Berkeley campus) and a total annual enrollment in classes of 20,000. Department personnel are currently housed in seven buildings located in three widely separated parts of the campus. Biosciences Divisional Services (BDS) provides administrative, student, and instructional support services to departments, research centers, and affiliated ORUs in the L&S Division of Biological Sciences. Our focus is to provide effective and efficient support to the teaching and research missions of the Division of Biological Sciences and to allow the faculty to focus on developing and growing our teaching and research rather than on managing business services. We support a culture of continuous improvement in order to ensure we provide excellent service for the faculty, staff, and students in the Division.
